FOR SUPPLIERS · 25 NOVEMBER 2026

BRIDGEGAP™

by EcoPIVOT Technologies Inc.

Receive steady contractor orders from scan-coded materials lists, and pay a commission by invoice only on orders that are placed.

Prototype in build Phone app — internet-based and paperless Partnerships pending Commission rate to be set

Port Alberni, Parksville, Qualicum Beach and surrounding areas, Vancouver Island, B.C.

EcoPIVOT Technologies Inc. · Supplier names are listed as text only. All partnerships are pending. No agreement or endorsement is implied.

THE OFFER

Orders that come to you

Local and regional suppliers on Vancouver Island compete with big-box stores for contractor business.

BRIDGEGAP™ turns each accepted quote into a materials build list with a scan code, so the order can come to you. The platform is a phone app, fully internet-based and paperless. Build lists, scan codes, and invoices are all digital.

Customers and contractors get notifications when a new job matches, a quote is ready or accepted, a deposit is paid, the handshake is complete, or a re-quote is available. Clear updates mean less chasing and less uncertainty for customers, and steadier, more predictable work for contractors, which helps orders reach you on a more reliable path.

1. **A contractor sets a quote**
   The system builds the materials list from that quote.
2. **The list carries a scan code**
   The code is tied to a partner supplier, so the order has a clear path to your counter or your system.
3. **The contractor places the order**
   In your store, or with the system sending the order in.
4. **You pay a commission by invoice**
   Only on orders that are placed. The rate is to be set.

This is an invitation to local independent suppliers and regional suppliers who want contractor orders in Port Alberni, Parksville, Qualicum Beach, and the surrounding area.

> **No agreement is implied**
> Supplier options under discussion include Home Depot, Home Hardware, RONA, and local independent suppliers. These names are listed as text only. All partnerships are pending. No endorsement is implied.

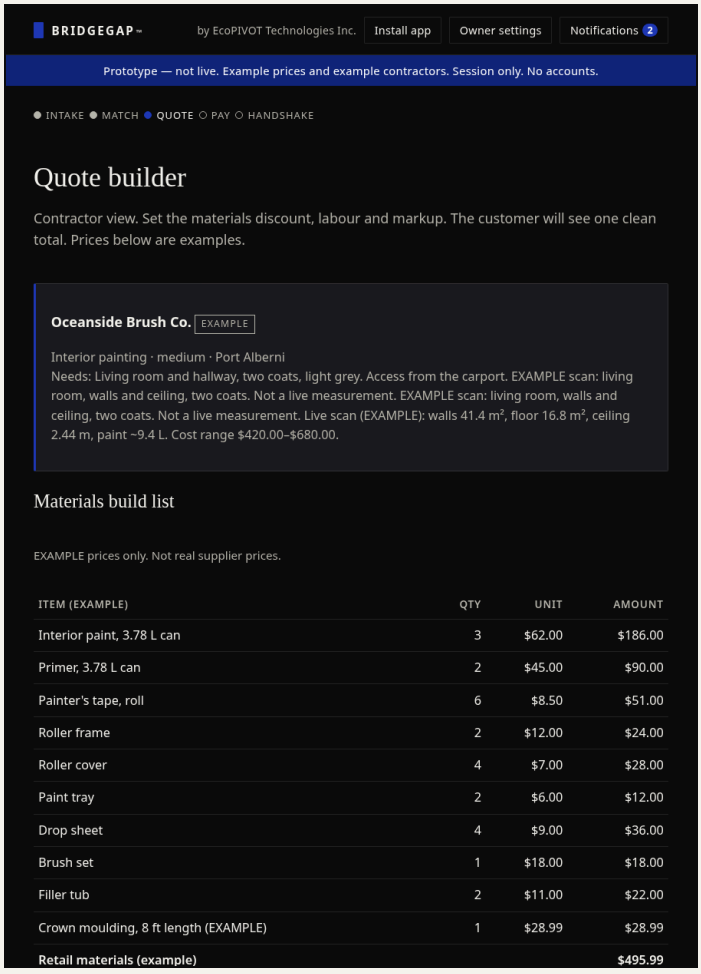

COMMISSION

By invoice, only on orders that are placed

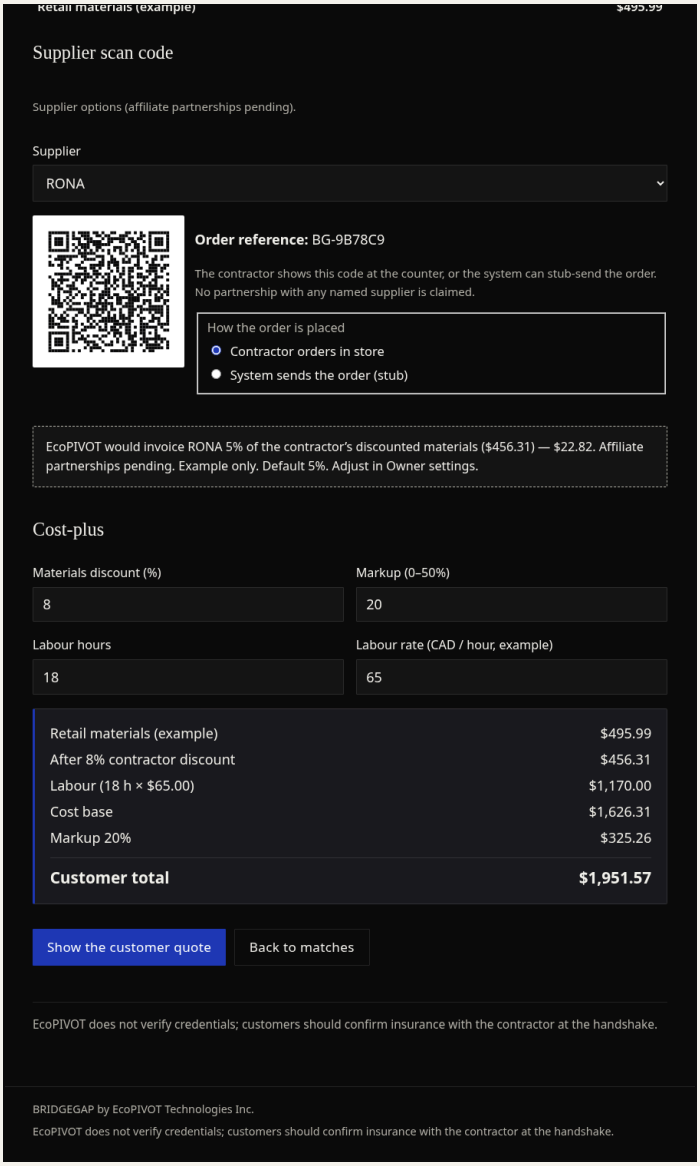

The rate is to be set. This document does not project order volume or income.

Materials list and scan code

Working prototype, example data. One screen, shown in two parts so the build list and the scan code remain readable. Supplier names appear as text only. Partnerships pending. No supplier logos. Prices are examples, not real supplier prices.

03 · Materials build list. Working prototype, example data. The system builds the list from the contractor's quote. Prices are examples, not real supplier prices.

03 · Supplier scan code. Working prototype, example data. The contractor can order in store or have the system send the order in. Commission, when an order is placed, is by invoice. The rate is to be set. Partnerships pending.

EcoPIVOT Technologies Inc. · BRIDGEGAP™ · One Canadian patent application pending (CA 3,287,042). EcoPIVOT does not verify credentials; customers should confirm insurance with the contractor at the handshake. Supplier names, where mentioned, are text only; partnerships are pending. Working prototype screens use example data. This document does not project revenue or return.
